Service is a Number One activity for UHS.

You know good service before you make a purchase and when you make it you know that your decision was a good one.

UHS offers customers an extensive service package:

- 1. from non-binding consultation and submission of offers to the turn-key system
- 2. Remote monitoring, diagnosis, analysis and setting of equipment via network link, analog link or mobile network
- 3. Cleaning and maintenance of heat exchangers or systems at the customer's place or in our factory
 - 4. Extensive range of spares, e.g., replacement plates or screw-type plate heat exchangers
 - 5. Conversion and extension of available systems
 - 6. Other services on request
